ⁱ This is a capped entitlement program and the annual funding is automatically fixed by law.

ⁱⁱ This is an entitlement program, its annual funding is automatically set at the level required to fund the services authorized for eligible persons. Statutory changes in eligibility or benefit levels, as well as changes in the number of eligible persons participating, affect federal outlays.

¹ This includes a new initiative of \$20 million for innovative programs that can reduce long term foster care placements.

² A mandatory program to fund evidence-based home visitation models; legislation is required to implement and has been included in the House health care bills, the Senate is expected to a version in it's Finance Committee health bill.

³ Created by the Fostering Connections to Success Act (P.L. 110-351) and provides competitive grants for kinship navigator, family finding, family group decision making and residential treatment programs. Funding is mandatory.

⁴ Both programs require authorizations currently working there way through Congress and may include mandatory funding.

⁵ As an entitlement program, its annual funding is automatically set at the level required to fund the services authorized for eligible persons. Statutory changes in eligibility or benefit levels, as well as changes in the number of eligible persons participating, affect federal outlays. While approximately a 10.4% increase above FY 2009 spending, the President's FY 2010 does include \$1.5 billion in savings to Medicaid in FY 2010 to increase efficiency and accountability and to contribute to the hopeful overhaul of our nation's health care system. Some of the Medicaid savings come from a new State option expected to reduce unplanned pregnancies and related costs whereby States can expand Medicaid family planning services to non-pregnant women between the ages of 15-44 who have a family income below 200% of the Federal poverty level

- ⁶ On February 4, 2009, President Obama signed into law P.L. 111-3 reauthorizing what is now the Children's Health Insurance Program (CHIP) through September 30, 2013. The reauthorization provided an additional \$44 billion in funding over five years to provide coverage to approximately four million more children, many of whom are already eligible for either CHIP or Medicaid.
- ⁷ The FY 2010 Budget assumes that mandatory State abstinence education grants will not be reauthorized after their expiration in June 2009. These funds will be re-directed to evidence-based and promising teen pregnancy prevention programs. \$164 million in FY 2010 will be directed towards teen pregnancy prevention, mostly in the form of discretionary community-based grants and the rest being evaluation funds and mandatory State grants.
- ⁸ Funds from this program are drawn from the Tenant Protection Program
- ⁹ Funds within the Juvenile Justice and Delinquency Prevention accounts had been proposed to be combined and transferred to a new flexible grant program by the previous Administration. President Obama's budget does not include this proposal.
- ¹⁰ Community-Based Prevention is funding for community-based strategies that focus on street level outreach, conflict mediation, and the changing of community norms to reduce violence.
