* As of July 1 the House has acted on funding for the Women, Infants and Children program and the Department of Justice including juvenile justice but has not brought up funding legislation for the other programs listed here.

¹ The Administration is proposing a \$5 million increase to award competitive grants that focus on preventing and addressing the commercial sexual exploitation of children.

² This is a capped entitlement program and the annual funding is automatically fixed by law.

³ In FY11, PSSF was temporarily increased by \$20 million to fund the Court Improvement Program (CIP) at \$30 million (instead of \$10 million) for that year. As a part of the recent IV-B reauthorization (H.R. 2883), the \$30 million for CIP was maintained by transferring \$20 million from the PSSF mandatory baseline. So, H.R. 2883 returns the mandatory authorization to \$345, but \$20 million of that is now reserved for CIP funding.

⁴ This is an entitlement program, its annual funding is automatically set at the level required to fund the services authorized for eligible persons. Statutory changes in eligibility or benefit levels, as well as changes in the number of eligible persons participating, affect federal outlays. The changes in the FMAP account for the swing in funding levels as well. As more states opt-in to the federal subsidized guardianship program established under the Fostering Connections Act, this number will continue to increase.

⁵ The President is again proposing a \$250 million/year initiative for efforts to reform the child welfare financing system by creating financial incentives to enhance permanency, reduce abuse and neglect, and improve the well-being of vulnerable children.

⁶ Created by the Fostering Connections to Success Act (P.L. 110-351) and provides competitive grants for kinship navigator, family finding, family group decision making and residential treatment programs. Funding is mandatory.

⁷ The Adoption Awareness program was merged with the Adoption Incentive Payments program which accounts for the increase in funding.

⁸ The end of the calendar year temporary payroll tax extension (H.R. 3765) included IV-A of the Social Security Act; encompassing TANF, mandatory child care funds, and the Healthy Marriages and Fatherhood grants, extending these programs through February 29, 2012. The amount reflected in the chart presumes that the program will continue to be extended at a flat funding level through the end of FY12.

⁹ A mandatory program to fund evidence-based home visitation models created by P.L. 111-148, the Affordable Care Act. Funding levels are set through FY14.

¹⁰ Legislation includes a provision to allow Race to the Top challenge funding to be used for an Early Learning Challenge Fund competition for states to improve their early care and education systems. In FY2011, states competed for \$500 million in Early Learning Challenge Fund grant money that is taken out of the larger Race to the Top appropriation.

¹¹ As an entitlement program, its annual funding is automatically set at the level required to fund the services authorized for eligible persons. Statutory changes in eligibility or benefit levels, as well as changes in the number of eligible persons participating, affect federal outlays. The temporary increases to FMAP will result in swings in funding levels.

¹² On February 4, 2009, President Obama signed into law P.L. 111-3 reauthorizing what is now the Children's Health Insurance Program (CHIP) through September 30, 2013. The reauthorization provided an additional \$44 billion in funding over five years to provide coverage to approximately four million more children, many of whom are already eligible for either CHIP or Medicaid. P.L. 111-148 (The Affordable Care Act) extended the program through FY 2019, with additional funding through FY 2015.

¹³ The Committee recommends \$270,394,000 for PRNS within CMHS. The comparable level for fiscal year 2012 is \$275,756,000 and the administration request is \$219,550,000. In addition, the Committee recommends that \$45,000,000 be transferred to PRNS from the PPH Fund.

¹⁴ The committee recommendation includes \$2,000,000 in transfers available under section 241 of the PHS Act. In addition, the Committee recommends transferring \$25,000,000 to PRNS from the PPH Fund. The total program level assumed in this bill for PRNS in fiscal year 2013 is \$395,813,000.

¹⁵ In FY 2012, SAMHSA requested funding that created three new behavioral health programs, one being the Substance Abuse – State Prevention Grants. Therefore FY 2012 was the first year that the Administration requested funding for this grant program (although funding was never appropriated for the grant). The Committee recommendation does not include funding to create Substance Abuse State Prevention Grants in FY 2013 either.

¹⁶ Juvenile justice funding levels are from Senate CJS committee report S. Rept. 112-78, and House CJS committee report H. Rept. 112-169.

¹⁷ The Evidence-Based Competitive Juvenile Justice Demonstration Grants would fund competitive evidence-based juvenile justice demonstration programs.

¹⁸ Community-Based Prevention is funding for community-based strategies that focus on street level outreach, conflict mediation, and the changing of community norms to reduce violence.

¹⁹ The Administration is proposing legislation to reauthorize the Elementary and Secondary Education Act which shifts education priorities, programs, and funds. The legislation is under consideration in Congress and will impact this program.
